

Primavera Italiana 2007

Embassy of Italy

<http://www.primavera-italiana.net/>

Italy and Japan at the Frontiers of Nuclear, Particle and Astroparticle Physics

9 June, 2007 (Saturday) 10:00 – 18:00

Italian Cultural Institute of Tokyo (http://www.iictokyo.esteri.it/IIC_Tokyo/)

----- Program -----

- 10:00** Welcome addresses **U. Donati** (Director of ICI Tokyo)
- 10:30** Presentation by Italian and Japanese companies
CAEN SpA, SAES Getters, ASG Superconductors, Hamamatsu Photonics, REPIC Corporation, Oki Electric, Furukawa Electric, AMSC Co.
- lunch and cocktail -----
- 13:30** Special remarks **Mario Bova** (Ambassador of Italy)
- 13:35** 50 years of Nuclear Physics in Japan **A. Arima** (President of Japan Science Foundation)
- 14:15** Highlights of INFN researches and achievements **R. Petronzio** (President of INFN)
- 15:30** Particle accelerators in Japan (incl. J-PARC) **F. Takasaki** (KEK, Director of IPNS)
- coffee break -----
- 16:30** Accelerators for Nuclear Physics in Japan **Y. Yano** (Director, RIKEN Nishina Center)
- 17:00** Particle accelerators in Italy **S. Bertolucci** (Vice-President of INFN)
- 17:30** Opera experiment and the mystery of the neutrininos **K. Niwa** (Nagoya University)
 A live video connection with underground Gran Sasso Laboratories !
- 18:00** Closing remarks and Future Perspectives
M. Koshiba (Nobel Prize Winner in Physics 2002, Emeritus Professor of Univ. of Tokyo)
H. Kamitsubo (RIKEN Adviser), **R. Petronzio** (President of INFN), **U. Donati** (Director of ICI)

Sponsored by : **Embassy of Italy in Tokyo and INFN**

Supported by: **Japan Science Foundation, KEK and RIKEN**
