---

### Job Description

The Applied Research Laboratory (ARL) seeks applicants for a Professor position to work in the field of information technology (IT) security and computing science related to accelerator science.

The successful candidate will belong to Computing Research Center of the ARL, and is expected to take a leading role in operating and improving the IT security infrastructure as well as in management of the Computer Security Incident Response Team of KEK. The candidate is also expected to engage in R&D work on computer-network systems and in research work on accelerator-related computing science.

### Qualification

Person with the ability to research and educate.

### Method of Selection

After reviewing the application, candidates will be required to go through an interview.

The date of the interview will be indicated on the web when it is fixed.

(We will inform of the interview day at a late day only to the applicants who passed our documentary screening.)

### Salary

Salary and various allowances are determined according to the KEK rules. (Monthly or Annual salary system)
