### Job Description

Institute of Particle and Nuclear Studies is seeking to fill a term-limited assistant professor position. The successful candidate will belong to the Institute of Particle and Nuclear Studies as an expert on the Machine Detector Interface between the Belle II experiment and the SuperKEKB accelerator, and carry out researches such as to mitigate the beam induced background from the SuperKEKB accelerator, and to maximize the physics output from the Belle II detector. The workplace is the Tsukuba campus.

### Qualification

Applicants must have good skills in research and education, and must demonstrate capabilities to carrying out the described jobs.

### Method of Selection

After reviewing the submitted application documents (see below), applicants may be called for an interview. The date of the interview will be announced through the web when it is determined, and will also be separately communicated to the applicants who will be interviewed.

### Salary

Salary and various allowances are determined according to the KEK rules. (Annual salary system)

Base annual salary: 6,390,000yen

Supplementary allowance for commuting and housing when appropriate conditions are satisfied.

Social insurance (fraternal insurance, employment insurance, industrial injury insurance) is included in addition to the above.

### Working Hours

Discretionary work system for professional work is applied and working hours will be deemed as 7 hours and 45 minutes per day.
