### Job Description

The Applied Research Laboratory (ARL) seeks applicants for a Associate Professor position to work in the field of radiation protection for accelerator facilities.

The successful candidate will belong to the Radiation Science Center of ARL, and is expected to take a major role in the radiation safety analysis and construction of the advanced safety system, for KEK accelerators and its future projects. She/He is also expected to play a major role in the researches concerning radiation physics, radiation chemistry or radiation engineering related to accelerator health physics, and give lectures and supervise students. She/He should have the first class Japanese certification for radiation protection.

### Qualification

Person with the ability to research and educate.

### Method of Selection

After reviewing the application, candidates will be required to go through an interview. The date of the interview will be indicated on the web when it is fixed.

(We will inform of the interview day at a late day only to the applicants who passed our documentary screening.)

### Salary

Salary and various allowances are determined according to the KEK rules. (Annual salary system)

### Working Hours

Discretionary work system for professional work is applied and working hours will be deemed as 7 hours and 45 minutes per day.
